(BELGIUM).

Gentlemen,

In offering my present price list, I beg to call your special attention to the remarkable low prices. All further information will be given gratis. I invite my numerous customers to favour me with a visit and see for themselves the importance of my establishment, and the superior culture of my plants.

The establishment cover 3 hectares on which stands 35 houses each 25 yards long, and very large orangeries for the wintering of Sweet Bays of which I make a great specialty.

I shall be much obliged if my customers in ordering plants, would write their address plain and fully and also let me know the route they are to be sent.

Conditions of Sale. — All orders from unknown correspondents, must be accompanied by a remittance, or reference from a well known nurseryman.

Time of Payment. — Accounts must be paid in January and July. All my bills are sent out in June and December. All packing must be paid by the purchaser and also the carriage.

All good are sent at risk of the purchaser great care is always taken to assure the quick, healthy and safe arrival of the plants.

I always advise by letter on the same day the goods leave.

ALBERT RIGOUTS begs to tender his sincere thanks to all those who have hitherto favoured his predecessor with their commands, at the same time, respectfully asking their further orders, to which the greatest care and attention will be given to ensure a continuance of the approval which has been accorded to his past efforts, which a yearly increasing trade bears testimony.

NOTICE.

Nurserymen may be quite safe in leaving their selection of plants to me as a defective plant never leaves my nursery they are always in the most healthy and vigorous state.

EXPEDITION.

Steamers sail weekly from Ghent and Antwerp to all the principal ports of Great-Britain and the United States of America.

TO MY HONOURABLE CUSTOMERS.

Owing to my continued increase in my foreign trade, I have had to enlarge my establishment. I would advise my customers living at a distance, to send me their orders as soon as possible so as to insure the first choice which is soon exhausted although my stock plants is always very large.

Yours faithfully

ALBERT RIGOUTS,
